Do you want to try something new? Submit your abstract for VOSTER now!

This is your chance to showcase your research novelty in ICADD Kuala Lumpur 2018 in a unique format of presentation!

VOSTER is a 3-minute video poster that consists of problem statement, summary of your data and conclusion! Make it interesting to draw attention from the audience.

Your VOSTER will be included in the showcase throughout the conference, yet you don't need to stand next to your poster!

This option is an excellent alternative to the international delegates who couldn't physically attend to ICADD Kuala Lumpur 2018. We'll send you the certificate and goodies a day after the conference.

All VOSTER must be uploaded online before 1st July 2018.
